Subject

Our File 582-518 Con't. From HKK

Mel Rein called today with regard to the claim which was proposed by him on September 24, 1970. I told him that I had discussed the matter with the inventor and others concerned and that the proposed claim would be satisfactory. He indicated that he would allow the case with the proposed claim in it, subject to his boss's approval. (This latter comment from him, since Ralph Nader and friends are turning on some pressure in the tobacco additive area, nicotine being a particularly unpopular "additive".)
